

Beating the Indian Defences

Take on the King's Indian,
Nimzo-Indian, Grünfeld and
all the other Indian complexes

Graham Burgess and Steffen Pedersen

A repertoire for the player wanting to confront the Indian defences head-on and play for blood!

The follow-up volume to the authors' successful *Queen's Gambit for the Attacking Player*, this book completes a detailed repertoire for the Queen's Pawn player by providing aggressive systems against the Indian defences.

The carefully planned, interlinked repertoire includes highlights such as:

- Fiendishly dangerous lines against Burgess's own favourite, the King's Indian
- Deadly attacking ideas against the Dutch, drawing from Pedersen's experience on the black side
- Punishing ripostes to many dangerous counter gambits

FIDE Master **Graham Burgess** is an experienced international player and author, and holds the world record for marathon blitz chess playing. This is his twelfth book.

International Master **Steffen Pedersen** is a young Danish player. He has been an active tournament player since his teens, bursting to fame with a grandmaster norm at age 16.
